### PROFILE

I am an experienced software engineer aiming to gain and apply knowledge in the field of Big Data and AI and be a part of the team that helps me to expertise my skills.

### TRAINING/COURSES

#### Convolution Neural Networks

Deeplearning.ai From Coursera, Online  
| Nov 2021 - Dec 2021

#### Neural Networks And Deep Learning

Deeplearning.ai From Coursera, Online  
| Aug 2021 - Sep 2021

### WORK EXPERIENCE

#### Software Engineer

Soft-Corner, Pune | Mar 2019 - Sep 2021

- Worked on a product in financial sector using React JS.
- Implemented a third party system for an NGO Client and designed the Dashboards in MetaBase.
- Worked on an open-source educational platform, majorly responsible for Python scripting.

### EDUCATIONAL HISTORY

#### CDAC Acts Center, Pune

Diploma in Big Data Analytics | Sep 2018 - Mar 2019

- Score : 71.92%
- Project : "Terrorism Analytics: Learning to Predict the Perpetrator"

#### Jawaharlal Darda Institute of Engineering and Technology

BE | Computer Science & Engineering | 2014 - 2018

- Score : 74.66%
- Project : "Automatic Instrument System to Record & Identify Nocturnal Bird Calls with Various Weather Parameters"

### SKILLS

- Python
- MySQL
- Java
- Hadoop
- Apache Spark
- Machine Learning
- Deep Learning

### ACHIEVEMENTS

Secured 2nd prize in National Level Project Competition (3rd IETE Innovators and Industry Meet) organized by IETE(The Institution of Electronics and Telecommunication Engineers)
